

The Circus of Life

Mental Health Awareness & Resilience

Course overview

Stress is the number one cost to businesses in the UK. It is also the first step on the road to mental health issues.

Around 17 million working days were lost in the UK to sick leave caused by mental health in 2015; an increase of 25% on 2014.

Office of National Statistics 2016

For every 80 pence spent on resilience and wellbeing programmes, £4.00 can be saved due to reduced absenteeism, temporary staff, presenteeism and improved motivation

The European Network for Workplace health Promotion

Learning to navigate the business world is a little like learning to be a circus performer; we need to juggle a few balls, balance many demands, walk a tightrope, trust and work with the others in our team, sometimes clown around a little and feel the thrills.

This workshop looks at all the demands being placed on today's workforce. It begins by looking at what stress is and how it can lead to physical and mental health issues. After looking in more detail at the different types of mental health difficulties and how to spot them, it then goes on to show employees how to find balance, look after themselves, become resilient and take control of their future – both personally and professionally.
